# Danville: Now

The community views Danville today as a **thriving** and **progressive environment** with a **focus on growth and development**. Despite some remaining racism and potential weak spots in leadership, there is **optimism** and a **belief in the potential for rebuilding**. The pace of change may be fast, but there is a strong sense of progress and potential for the future.

# Danville's Vision

Respondents desire **affordable housing, safety, inclusivity, economic prosperity, clean and beautiful surroundings, and entertainment opportunities**. They also call for the promotion of local businesses, the development of neighborhoods, the creation of more job opportunities, and the enhancement of cultural activities. The emphasis is on positive collaboration, community involvement, and **a vision for a thriving, connected, and welcoming community**.

The vision for Plan Danville will be collectively crafted after the Share Community event.
